KIM

Her sister Kendall's meteoric rise to fame in the fashion industry has left queen bee Kim feeling insecure and desperate to keep up with her little sis. But the 33-year-old star's obsession with facial fillers has backfired, leaving her looking anything but natural.

"She's had a lot of dermal filler to her cheeks to add volume and lift creases

around her mouth area," claimed Dr Mooney after viewing shock new pics of Kim last week. "She has also had Botox and enhanced her lips. She's gone from looking attractive to being very overdone."

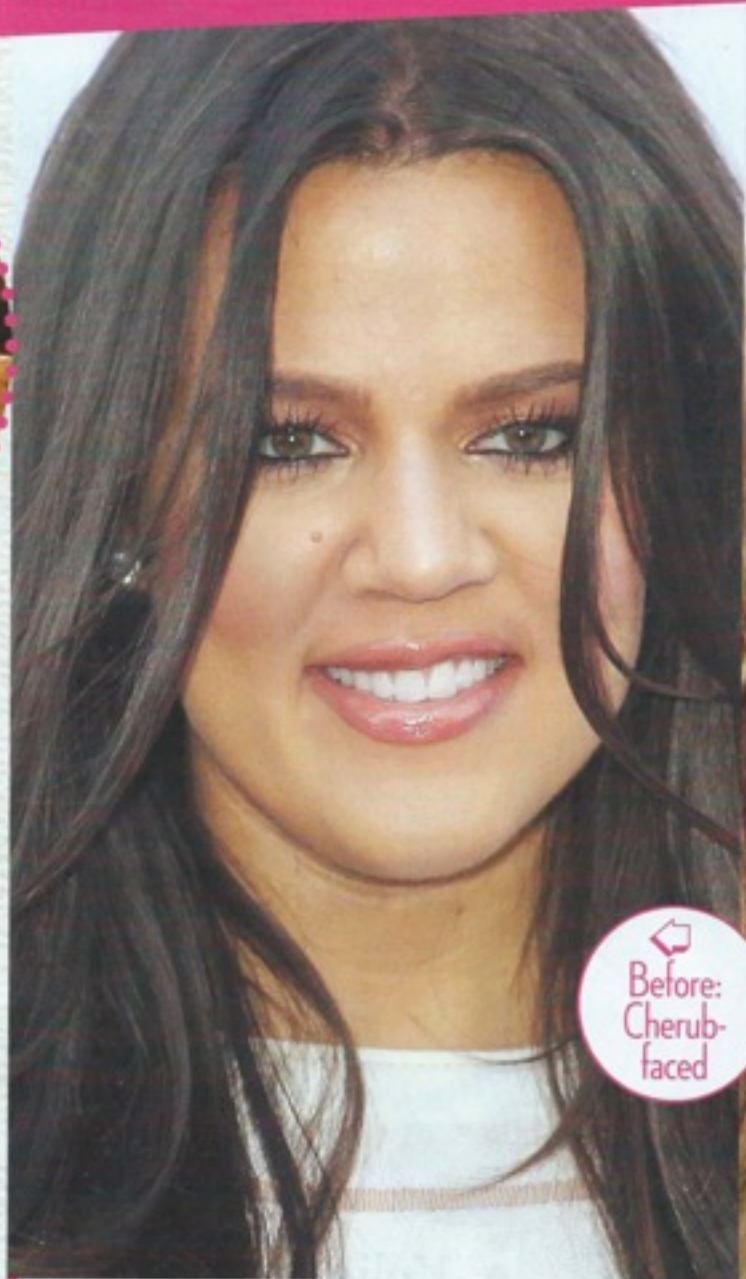

Kim has gone to new lengths in her quest for eternal youth, using a "muscle relaxant to her forehead, crow's-feet and brow".

Kimmy's faking it

-  Botox injections to get rid of wrinkles.
-  Facial fillers to plump up skin.
-  Muscle relaxants to keep skin smooth.

WARS

Going under the knife is practically a tradition when you're a member of the Kardashian clan. But fierce rivalries between Kim, Khloe, Kendall and Kylie are seeing the image-conscious siblings go to new lengths to out-beautify each other. Increasingly frequent trips to the surgeon to get swollen pouts and tweaked beaks are estimated to have collectively cost the sisters up to \$1 million over the years. Sydney surgeon Dr William Mooney pinpoints how far the scene queens have gone... ✨

KHLOE

Back in March, Khloe copped flack on social media for showing off the results of a rumoured surgery binge - but the backlash hasn't put her off her journey to perfection.

"Like Kim, Khloe has had her lips enhanced and may have had her jawline filled with Botox to create a slimmer, more refined lower-face," says Dr Mooney. "But

too much Botox in her brow has left her with eyebrows like Jack Nicholson."

One feature Khloe refuses to touch? Her nose. The 30-year-old says she was left devastated after overhearing mum Kris Jenner saying she needed a nose job when she was nine. "I was shocked," she admits. "I'm so happy that I never [had one]."

KYLIE

Not one to be left on the sidelines, the youngest member of the reality TV family, Kylie, appears to have been sucked into her sisters' surgery obsession. Sources say Kylie has spent more than \$100,000 in an effort to look more like her sister Kendall.

In addition to Botox injections in her forehead to lift her brow and open her

eyes, Dr Mooney says Kylie has had an "obvious lip enhancement". She may also have undergone a nose job that successfully "thinned the bridge", he adds.

But she hasn't stopped there. Despite being just 16, there are rumours Kylie has also had a boob job - although she denies these surgery rumours.

Botox injections in her brow.

Lip injections for a plump pout.

Possible breast implants for killer cleavage.

BUT WAIT... THERE'S MORE

BEFORE

AFTER

Naya's post-wedding surgery blitz

She's already said to have undergone a nose job and a recent boob job, but it looks like Glee star Naya Rivera, 27, isn't ready to call it a day just yet. Last week, the actress was seen sporting noticeably swollen lips as she left an LA gym with her new hubby Ryan Dorsey. "She appears to use dermal fillers to keep her lips full and youthful," says US plastic surgeon Dr Michael Salzhauer.

Brit's \$100,000 makeover fail

After bagging a huge \$32 million pay cheque for her recent Las Vegas residency, mum-of-two Britney Spears, 32, has spent more than \$100,000 on surgical procedures. "Brit's had chemical peels, laser resurfacing, and stretch mark and cellulite treatments," a source tells UK mag Heat. "She's also had her thigh and tummy fat frozen off."

KENDALL

She's well and truly on the fast-track to international modelling fame, and Kendall Jenner, 18, is determined to carve out a place for herself among fashion's elite.

Despite her age, Kendall is taking every measure to make sure she looks hot - even if it means resorting to surgery.

"Her nose looks a little thinner down the bridge, which could be thanks to a minor rhinoplasty," says Dr Mooney. "Just like her sisters, Kendall's had her brow lifted and forehead treated with Botox."

Kendall's tweaks

-  Rhinoplasty for a slimmer nose.
-  Botox to lift her brows.
-  Botox to smooth her forehead.
